# A MESSAGE FROM THE DIRECTOR

Dear Community and Business Partners,

Your municipality has a mandatory requirement that all commercial, industrial, institutional and multi-residential complexes arrange for the collection of their recyclable materials through private agencies.

As part of the Capital Region Recycling Partnership your municipality has taken the first step in making recycling a priority and has recognized that reducing the amount of waste that ends up in our landfill is a positive result for all concerned.

This pamphlet will assist you in locating the necessary hauling companies, as well as provide information on local secondary markets for materials that can be reused, recycled or composted. Additional information can be found at [www.capitalregionrecycling.com](http://www.capitalregionrecycling.com).

I would like to thank you in advance for your cooperation and support in this effort. I look forward to our continued partnership as we work together in doing our part to make our municipalities more environmentally friendly.

Sincerely,

Frank W. Zeoli  
 Director of Recycling  
 Capital Region Recycling Partnership

## IT'S THE LAW

### MANDATORY COMMERCIAL, INDUSTRIAL AND INSTITUTIONAL SOURCE SEPARATION PROGRAM

**IT'S THE LAW** Did you know that it is **mandatory** that all **commercial, industrial, institutional establishments**, and **multi-residential complexes** arrange for a private collection program for recyclable materials?

If an establishment or complex is found to be in non compliance with the mandatory recycling requirements set fourth by your municipal code then the responsible person(s) may be assessed a fine, may face penalties of imprisonment or community service or any combination of the above.

**UNACCEPTABLE MATERIALS** The list of materials on Page 4 are materials that are **NOT** to be placed in your refuse container for pick up by your private hauler. **Your private hauler is not allowed to dispose of these items at most Solid Waste Management Facilities** therefore these items, in addition to what your city or town prohibits, are not to be placed in your refuse container for disposal. For more information on which items should not be placed in your refuse container for disposal contact your city or town.

**HAULERS** On Page 7 a list of local haulers that can be contracted to pickup waste and recyclables from **commercial, industrial, institutional establishments**, and **multi-residential complexes**.

**THIS DIRECTORY** This Directory provides company names, contact persons and locations of local recyclers and reuse organizations for recyclable materials including some materials listed as unacceptable. It is for informational purposes only and is intended to assist residents and businesses in choosing a hauler. This list is by no means exhaustive and does not constitute a recommendation from any municipality in the Capital Region Solid Waste Management Partnership Planning Unit. And as such the planning unit does not take responsibility for any act or omission of the commercial hauler, and will not be held liable for any damages, losses or expenses incurred as a result of hiring any of the listed commercial haulers.

Should you have any unacceptable materials that are not listed in this Directory please visit <http://www.empire.state.ny.us/Manufacturing & Environment/Recycle/secondary markets.asp> for additional companies throughout the North-east that might accept your material.

**Reduce, Reuse, Recycle**

# UNACCEPTABLE MATERIALS

- Explosives or ammunitions;
- Combustible liquid or gas containers, bottles, cylinders, or cans;
- Caustic acids, corrosives, chemicals, or other hazardous wastes, radioactive or other contaminations or pollutants prohibited by mandatory and binding laws or regulations of the United States and New York State
- Liquid or slurry waste;
- Unopened containers, except empty household spray cans;
- No lawn clearing debris including grass, leaves, stumps, tree trunks, or limbs;
- No asbestos waste;
- Thick walled or solid metallic objects such as casting, forgings, gas cylinders, or motors;
- Steel or nylon rope, cables, or slings more than four feet in length;
- Case hardened or alloy steel chains over 3/8 inches in diameter or four feet in length;
- Animal wastes or parts of animal other than normal household garbage
- No recyclables as determined by the commissioner of the Department of General Services;
- No barrels or drums;
- No asbestos waste;
- Solid block of metal, rubber, or plastic in excess of two cubic feet;
- Any material classified as infectious or hazardous wastes such as: contaminated hypodermic needles, syringes, broken glass, scalpel blades, isolation waste, cultures, stock from laboratories, human blood and blood products);
- No incinerated or partially incinerated materials; and
- Industrial wastes, wastes that are not easily recognizable or wastes that may pose a health risk to landfill employees will only be accepted with written approval from the Landfill.
