Please provide the following information as annual totals for calendar year 2013 for any applicable categories for all customers you service in the municipalities stated on the previous page. If you do not know your annual totals by weight, you may report the average volume for each collection period based on dumpster size (for example, 2 cubic yards every week). Please include the end use destination for your recyclables if known (i.e. where they are sold to or who picks them up).
